

1. Test Setup

Participants:

User 1: Family

User 2: Friend

Tasks Tested:

- i. Sign up and log in
- ii. Select a mood and view ayah suggestion
- iii. Resume reading
- iv. Write a journal entry
- v. Check progress

2. Overall Findings

All three users completed the tasks smoothly without needing help. They found the interface clean, calm, and easy to understand. The flow from login → home → mood → reading felt natural.

3. What Users Liked

- i. Simple layout: Each tab (Home, Mood, Reading, Journal, Progress) is easy to recognize.
- ii. "Continue" feature: Everyone appreciated being able to resume reading where they left off.
- iii. Mood-based ayahs: Users liked the personalized touch of verses matching their emotional state.
- iv. Journal section: Felt meaningful and easy to use.

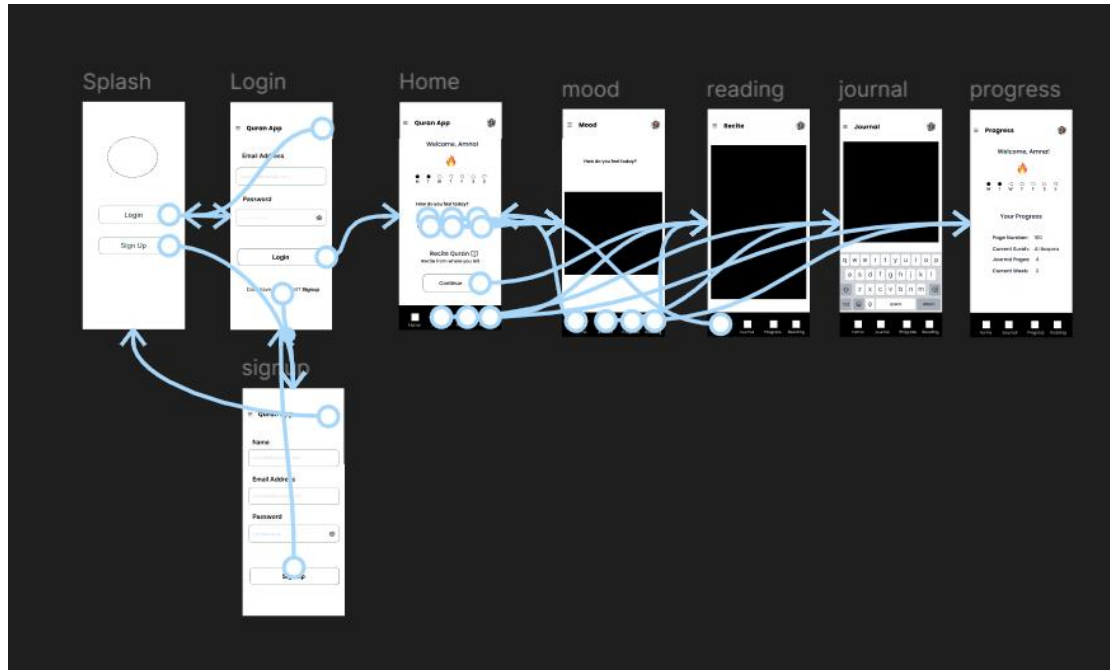

4. Minor Suggestions / Future Improvements

- i. Since no major issues were found, users gave a few minor ideas for enhancement:
- ii. Add soft background themes or color variations for a more engaging look.
- iii. Include audio recitation alongside reading for accessibility.

5. Summary

- i. No usability issues detected

- ii. Design and navigation well received
- iii. Small enhancement ideas for future versions
